Connor Crickmore handles patent work relating to electronics, electrical engineering and software.

Connor joined Reddie & Grose in 2018 after completing a Master's degree in Physics at Oxford University.

During his 4th year at university he specialised in theoretical and biological physics. His master's project focused on Nuclear Magnetic Resonance methods for identifying hydrocarbons. Connor also undertook a REU programme at Columbia University Medical Centre whilst at university, resulting in a published paper on a novel ultraviolet sterilisation method.

Connor has experience prosecuting patent applications in various fields including batteries, fuel cells, fibre optics, satellite technologies, consumer products, medical devices and telecoms. Connor has also drafted multiple patent specifications relating to electrical circuits and components, including transformers and switched-mode power supplies.

In his spare time, Connor enjoys weightlifting and travelling off the beaten track.

Qualifications

- MPhys, first class honours, Oxford University (2017)
- Postgraduate Certificate in Intellectual Property Law, Queen Mary College, University of London (2020)

London

The White Chapel Building,
10 Whitechapel High Street, London E1 8QS.
