Dr. Mark Bentall handles patents in the mechanical and electronic fields and in software and business methods.

Mark joined Reddie & Grose in 2003 having completed a research degree in Condensed Matter Physics at Oxford University. Mark handles UK, European, and international patent filing and prosecution work and also advises on design matters. Outside work, Mark enjoys traveling, skiing, cycling and generally keeping active.

Mark has patents experience in the mechanical, electrical and electronic fields including telecommunications, integrated circuits, software and business methods. He also handles patent work in the oil, gas, marine and renewable energy sectors.

Mark advises on design matters, including registering UK designs.
