Robert Wiseman handles patent work in the electronics, electrical devices and software fields.

Robert joined Reddie & Grose in September 2016 and handles patent work in the electronics, electrical devices and software fields.

He graduated from the University of Leicester with a BSci in Physics and was awarded the departmental prize of Physics and Astronomy for the best performing final year student. During his course, Robert designed and built the detector stage of a shortwave radio receiver as part of a group research project. He also undertook a British Heart Foundation research project during his final year, in which ultra-fast ultrasound was tested as a method of stroke prevention.

Outside of work, Robert enjoys music. He plays the guitar and piano, and has toured Paris in a steel band. He also plays a variety of sports including football, golf, and enjoys snowboarding and windsurfing when he can.
